

Environmental Policy

Brompton Cross Construction recognises that its business activities interact with the environment in a variety of ways. These activities have a significant impact in the key areas of:

- raw material use
- energy use
- generation of waste materials

We believe we have a responsibility to help protect the environment wherever it has an opportunity to do so, to be a responsible neighbour, and to provide a comfortable environment for our employees to work in.

As such, the CEO is committed to:

- Continual improvement in the environmental impact of our business activities;
- Improving the environmental benefits provided by our services;
- Preventing pollution;
- Complying with all relevant legal, customer, and other third-party requirements;
- Setting measurable environmental objectives that help minimise environmental impact;
- Adopting best practices applicable to our activities wherever practicable.

Brompton Cross Construction will achieve these commitments by:

- Implementing and maintaining an Environmental Management System that is independently certified as compliant with ISO 14001:2015;
- Employing processes that identify the aspects of our business that have an environmental impact and quantifying the significance of each aspect;
- Maintaining an environmental performance improvement programme to enable our objectives to be achieved;
- Ensuring that our employees, suppliers and customers are aware of their role in supporting our commitments and environmental objectives;
- Training our employees in good environmental protection practices and encouraging employee involvement in environmental improvement initiatives;
- Continually monitoring the environmental impact of our business activities.

The implementation of this policy is fundamental to the success of our business and must be supported by all employees as an integral part of their daily work.

This policy is publicly available to interested external parties upon request.
